Contract announcement #98-19

2 November 1998

General Architect-Engineer Services

The U.S. Army Corps of Engineers Transatlantic Programs Center has awarded a contract (DACA78-99-D-0001) for general architect-engineer services.

The contract was awarded Oct. 14, 1998 to Stanley Consultants Inc., 225 Iowa Avenue, Muscatine, Iowa, 52761.

Under the contract, the firm will provide general architect-engineer services for designs, specifications, cost estimates, planning and programming reports, engineering studies, geotechnical investigations, and other engineering support services for facilities at various locations within the Transatlantic Programs Center's area of responsibility. The contract has a \$2 million ceiling each year for the base year and two option years.
